THE PROBLEM

The problem of teacher retention is a slowly-creeping crisis in public education.

It's threatening schools in the greater Houston area — and beyond.

Teachers are leaving the profession faster than they can be replaced, which puts added pressure on those who remain, oftentimes wearing them down well before their time.

Unfortunately, since the pandemic, the exodus has only gotten worse, so **school districts are struggling like never before to retain their teachers.**

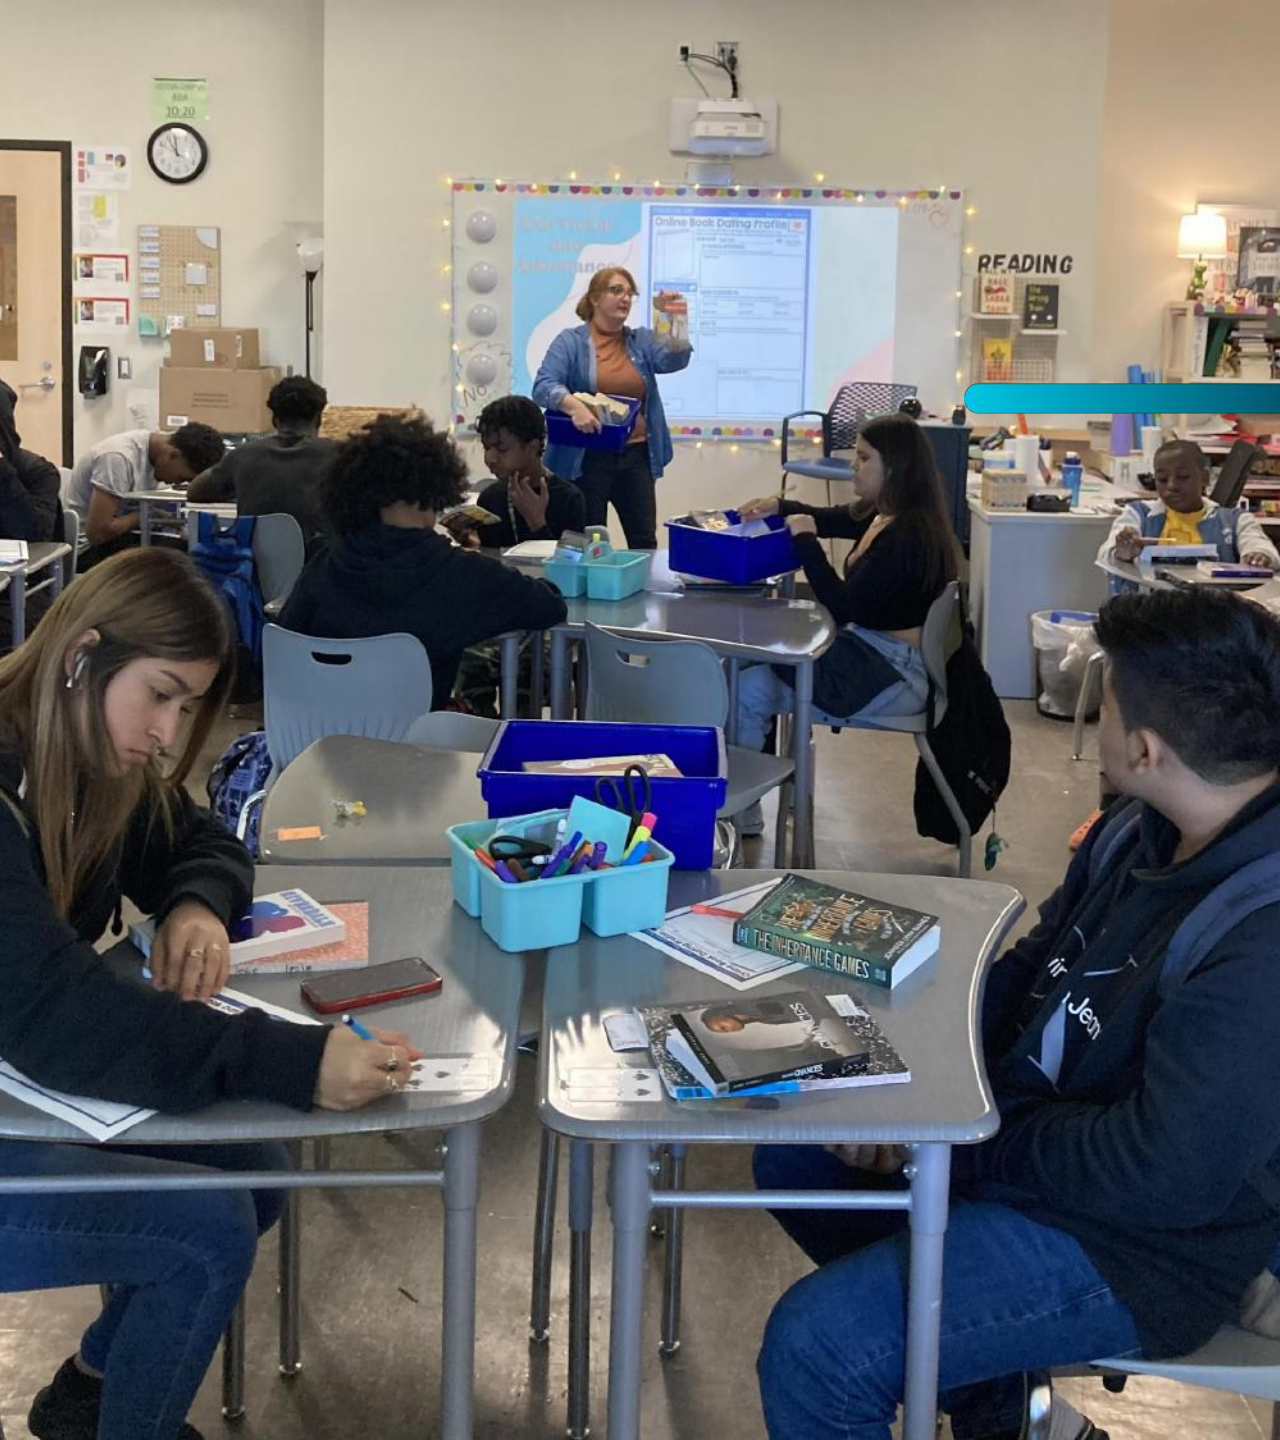

THE SOLUTION

PRO TEACHER

A teacher retention tool
designed by Histrionix Learning

Pro Teacher is a professional classroom support service designed to stem the tide of the educator exodus by pairing them with experienced experts who help lift their burden and build their practice at the same time.

PRO TEACHER

WHAT IS PRO TEACHER?

Pro Teacher is a classroom support service that pairs credentialed mentor teachers with current K-12 teachers who are building their practice to **collaborate, co-teach and create content as a team.** That way, teachers get professional classroom support from experienced experts who are there to help them see sustainable student success and bring down daily stress levels.

Pro Teachers are happy teachers who feel supported by their schools.

Dinorah Perez

Tracy Spruce

“Educators help students imagine new possibilities for themselves and build the skills they will need to get where they want to go. High level reading, writing and thinking is what it takes, so our classrooms should be beautifully designed to promote active and meaningful teaching and learning.”

“The Histrionix Learning Pro Teacher team has been invaluable to our campus. **They are truly “pro-teacher,”** and we have already seen **noticeable growth** in both teachers and students. There is nothing better than having **experts in their field who understand the challenges faced by our school,** as well as the goals of the students and teachers, and who **target curricula and teaching methods toward those challenges and goals.”**

“The Pro Teacher model at Sharpstown has helped provide **quality, embedded support and professional development to teachers.** We sometimes struggled to implement independent reading in our English classrooms.
